EXPERIENCE

iTANZ Group
Mar 2026 - Present

Global Chief Strategy & Technology Officer

Lead Group-level strategy, growth, and technology direction, with responsibility spanning business and market strategy, P&L ownership, consulting and professional services, product strategy and innovation, technology capabilities, strategic alliances, and the Group's digital agenda.

- Shape strategy and growth across markets, portfolio priorities, business models, strategic partnerships, and new avenues for growth.
- Lead technology, consulting, and professional-services strategy across Data & AI, cloud, digital platforms, and emerging capabilities, including strategic advisory on customer transformation agendas.
- Drive product strategy and portfolio evolution alongside business performance, profitability, and the commercial and delivery models that support scalable growth.

Addo AI
Nov 2023 - Feb 2026

Head, Global Business & Strategy

Led global business, growth, and strategy, with responsibility spanning P&L ownership, market development, strategic partnerships, and international expansion, while advising enterprise customers on Digital Transformation and Data & AI strategy.

- Shaped and executed business and growth strategy, strengthening market position and expanding reach across industries and international markets.
- Advised C-suite stakeholders on Digital Transformation and Data & AI strategy, translating business priorities into transformation roadmaps and technology-led opportunities.
- Expanded the strategic alliance ecosystem across hyperscalers, enterprise technology providers, and consulting and advisory partners.

Microsoft
Aug 2021 - Nov 2023

Director, Strategic Programs, Customer Success & Delivery Excellence, APAC

Led strategic enterprise transformation, cloud adoption, and customer success programs across APAC, aligning large-scale technology investment with business outcomes for strategic enterprise customers across multiple industries.

- Directed transformation and cloud-adoption programs spanning Azure, Data & AI, and digital transformation for strategic enterprise customers.
- Played a key role in the Microsoft Malaysia Azure Region initiative, working across customer, regional, and global teams on consumption planning, service prioritization, capacity planning, and workload migration.
- Led strategic programs and delivery-excellence initiatives focused on accelerating adoption, strengthening customer success, and realizing value from enterprise technology investments.

IBM
Mar 2020 - Aug 2021

Associate Partner, Cloud Services & Practice Country Lead, Malaysia

Led IBM's Cloud Services business and practice in Malaysia with P&L ownership, advising major enterprise and public-sector organizations across industries including energy, financial services, and government on hybrid cloud, modernization, and transformation.

- Led the evolution of the Cloud Services practice across hybrid and multi-cloud, cloud-native applications, DevOps, and transformation services.
- Advised senior executives and technology leaders on cloud strategy, modernization, adoption, and transformation roadmaps.
- Advanced consulting and delivery capabilities to support complex enterprise transformation engagements.

HyperNym / Metis International
Sep 2017 - Feb 2020

Director, Technology / CTO / CCO

Led end-to-end business and technology operations, with responsibility spanning P&L ownership, consulting and professional services, delivery, product development, sales, business development, pre-sales, and marketing.

- Scaled Data & AI consulting and professional-services capabilities, leading customer engagements from strategy and solution development through delivery.
- Led product and technology strategy, architecture, development, and commercialization of an enterprise IoT platform spanning multiple industry use cases and international markets.
- Directed commercial strategy across sales, business development, pre-sales, marketing, and strategic technology partnerships to expand market reach and growth.

Oracle Corporation

Aug 2006 - Aug 2017

Director, Cloud Solutions Architect - APAC | Platform Cloud Solutions Lead - ASEAN
Strategic Solutions Manager & Architect - ASEAN | Enterprise Architect - ASEAN
Country Head, Applications Business - Pakistan & Southwest Asia | Technology Solutions Leadership - ASEAN

Progressive leadership from solution consulting and enterprise architecture into regional sales leadership, country business leadership, and Director-level cloud leadership for APAC, working with government and public sector, financial services, telecom, and other enterprise organizations.

- Led architecture and solution consulting engagements across ASEAN, driving enterprise applications and cloud adoption.
- Led Oracle's Applications business across Pakistan and Southwest Asia, with country-business responsibility spanning business performance, commercial strategy, sales and pre-sales, go-to-market, and enterprise applications growth across ERP, CRM, HCM, and Business Intelligence.
- Recognized through multiple Oracle regional performance awards across APAC and ASEAN.

Earlier Career

1994 - 2006

Microsoft (Technology Solution Professional), **Oracle** (Senior Solution Consultant), **Hewlett-Packard** (Software Engineer), **Systems Limited / Visionet Systems**, and **RIDOS**.

Progressed from application development and solution engineering into enterprise solution consulting across banking, enterprise, and public-sector clients.
